

Melih Turgut

M.Sc. Student in Computer Engineering · Üsküdar University

7melihturgut@gmail.com melihturgut.dev linkedin.com/in/melihturgut1 github.com/melokokori

Hi, I'm Melih. My path runs from forensic science to computer engineering, and today I work on systems that learn from data and on web technologies.

Interests

AI & data science · Web development · Computer networks

Education

M.Sc. in Computer Engineering Üsküdar University, İstanbul	2025 - present
B.Sc. in Forensic Science Üsküdar University, İstanbul GPA: 3.17 / 4.00	2019 - 2023

Experience

Data Science Intern OptiWisdom, İstanbul	2023 - 2024
- Conducted literature reviews in data science, analysing, summarising and comparing relevant papers. - Analysed datasets and built machine learning models. - Contributed to the writing of an academic paper and experienced the path from research to publication first-hand.	
Cyber Security Intern Ölçsan Teknoloji A.Ş., İstanbul	2022
- Performed network and vulnerability scans to identify security weaknesses in systems. - Simulated attack scenarios in a test environment to study attack types and defense mechanisms hands-on.	

Skills

Programming languages	Python, R, Java, JavaScript, SQL
Data & AI	pandas, NumPy, scikit-learn, PyTorch, TensorFlow
Web development	HTML, CSS, React, Astro, Node.js, REST API
Tools & systems	Git, GitHub, Linux

Languages

Turkish (native) · English (B2)
